

How do Year 11 students ask study questions? Like this:

“Can you help? ABCDE is a pentagon inscribed in a circle. If $AE = DE$, angle $BDC = 20$ degrees, angle $CAD = 28$ degrees and angle $ABD = 70$ degrees, find all the interior angles of the pentagon.”

“Hi. I’m trying to prove that if two opposite sides of a cyclic quadrilateral are equal, then the other two sides are parallel.”

“Hello, I would like some feedback on this essay (mainly pg 4) and also ways to improve it! Is my sentence structure correct? Do my ideas flow well?”

You get 24/7 study help for free with your library Member number. In fact, more than 1.6 million students in Australia and around the world have access to Studiosity.

You’ll get *help not answers*, to give you the confidence to keep going on your own.

Choose to get help from a Subject Specialist or even upload a draft for same-day writing feedback.

First, find Studiosity on the library website.
