

How do **Year 12** students ask study questions? Like this:

“Hi I just shared a picture of my question. I’m stuck on what will be the angle between the motorcyclist and the perpendicular?”

“i need to check if i’ve answered this extended answer correctly.”

“So I am having some trouble getting started on this. I have to create a multi-modal presentation in which we convey our understanding of how human experiences we have explored have provoked us to examine the motivations that drive human behaviours.”

You get 24/7 study help for free with your library Member number. In fact, more than 1.6 million students in Australia and around the world have access to Studiosity.

You’ll get *help not answers*, to give you the confidence to keep going on your own.

Choose to get help from a Subject Specialist or even upload a draft for same-day writing feedback.

First, find Studiosity on the library website.
