

# How do Year 10 students ask study questions? Like this:

“Hi. I’m trying to calculate the percentage by mass of the each element present in the following compounds: a. MgO b. CaCO<sub>3</sub>.”

“Hi I really need help with question 16 part B!”

“Hello, I have a draft of my speech, Unfortunately the limit is five minutes max and I cannot speak 1000 words in that time. My draft is currently what I think lacking in sophisticated grammar and too many words. How can I cut down and make it more structured and sophisticated? ?? thx”

**You get 24/7 study help for free with your library Member number.** In fact, more than 1.6 million students in Australia and around the world have access to Studiosity.

You’ll get *help not answers*, to give you the confidence to keep going on your own.

Choose to get help from a Subject Specialist or even upload a draft for same-day writing feedback.

**First, find Studiosity on the library website.**
