

Dulari Senevirathna, 1st year Bachelor of Arts/ Masters of Teaching and Religious Education,
Australian Catholic University

This year, studying was a challenge but ended up well.

I have to say being a first-year student at Australian Catholic University, I was exposed to different subjects as well as different people which made a huge impact to my learning, creativity and studying skills.

Even though this year has been quite difficult in result to COVID-19, I did miss out on the full university experience this year however, I am grateful for all the support ACU provided this year such as Studiosity always provided constructive feedback to improve with my academic essays.
