

Year 2020

A new year of 2020,
It seemed to be beautiful year for our family.
It was nice to travel and watch the nice places.
We went for our new year trips.
All of a sudden, a panic! A pandemic?
Is it true?
A virus? Is it a story in episode?
A virus cluster that can grow,

A freezing and choke.
Oh! It can cause an asthmatic death.
We changed our plans for our childrens' home-schooling.
But people start to walk with masks,
It is very different from the surgical masks and the masks that
protect us from virus.
A virus year! A pandemic course!

Or an epic study!

Introducing social distancing and lock downs.

It is a year to communicate on the digital.

Quarantines for travellers,

Depress days and anxious styles,

It was all I know about 2020.
