

Norbu Dolma, 1st year Health Science student  
WSU College

2020 has never been easy as a first year student in WSU. However, this day also never been the same as any other day. it was celebrating the uni open day for the upcoming students. full of laughter and smiles, introducing each and everyone with other students was such a special and fun day. I wish to be remembered this day forever and be part of Western until the end of my studies in life. Thank You WSU for a great start of my university life.
